FOR A SPECIAL PRESENTATION:

“IOS STUDY CLUB: HOW TO GET THE MOST OUT OF YOUR INTRAORAL SCANNER”

Do you have an IOS system but want to do more with it?

Are you only scanning for aligners or crown and bridge?

Would you like to get your staff more training on scanning?

Or, maybe you don't have an IOS, but you're curious about the benefits of going digital?

If so, you're not alone - and we're here to help!

Join us, and bring your staff, Feb. 27th, as we cover implant & digital denture scanning techniques, as well as answer any questions about IOS systems.

The event will feature hands-on work with Trios, but will seek to answer questions regarding all types of scanners.

Doctors and staff are encouraged to attend!

Space is limited, so be sure to RSVP by phone at: 630-541-7666, or by email: info@firstchoicelab.com

This is a FREE event, and food and drinks will be provided, but spots are limited, so don't wait - Register today!

PRESENTED BY:

Where: *Alter Brewing Company (Barrel Room)*
2300 Wisconsin Ave, Unit 213
Downers Grove, IL 60515
